Basis of report

An instruction was received to research the paternal and maternal ancestry of [Name] in accordance with the indications at <http://christinewibberley.co.uk/a->

starter-packages/ with a view to first constructing a family tree and preparing an enhanced report.

The report should be read in conjunction with the accompanying family trees

For an explanation of some of the records used in this research please see <http://christinewibberley.co.uk/terms-of-business/some-frequently-asked-questions/>

Direct ancestors are shown in **bold**.

Unless otherwise indicated copies of original registers including Bishop's Transcripts were viewed digitally online at Ancestry.co.uk

Note on dates.

Where it has been possible to ascertain a precise date of **birth** from a birth certificate, baptism record, 1939 register or a modern death registration the date is given.

In other cases where a date has been given as 'about' it has usually been calculated from a census entry and is approximate to within, usually a year, Ages in censuses are not always accurate, enumerators made errors, not everyone knew when they were born themselves, let alone when their parents and siblings and even spouse were born.

Where index entries for a birth are given these are sometimes slightly speculative and are a best time estimate based on the censuses and the place where the person was born.

Where a likely **death** reference is given that is also based on an estimate as to where and when the person might have died from the last census in which they appeared and the age at death.

However the only sure way to establish a death is by the purchase of the certificate although it is not then always clear that the certificate does or does not relate to the subject.

In the case of **marriages** a GRO reference is given based upon the name of one of the parties (usually the husband) and the results of a search based upon a time when a couple would have been likely to have been married, usually within two years before the birth of their first child and a date between them last living as a single person and appearing as a married person in the next census. Usually the bride's identity becomes obvious from the index because the forename of one of the brides on the relevant index page is the same as that of the wife in the next census.

Sometimes with a common forename there may be more than one bride with that name and the purchase of a certificate will be necessary. Sometimes assistance is given by the censuses where a newly married couple live for a time with the wife's parents, or the wife's elderly parent spent their final days with the family.

Clearly to purchase death birth and marriage certificates for every person in a study would incur a significant amount. Fortunately this research was assisted by the fact that most of the surnames are relatively unusual, the fact that many of the Lancashire Parish Registers are available to view online and the recent introduction of the new GRO indexes giving mother's maiden surname for births from 1837.

The **census returns** of England are deposited with the National Archives. Except where stated the digitised copies were viewed at Ancestry.co.uk.

Note: Part of the 1851 census for Salford has been water damaged and never filmed which may affect some of the findings in this report.

Possible explanations are:-

- A miscounting or lapse of memory on the part of **John Joseph** who completed the return.
- A view taken by the parents that a child was born alive when in the opinion of the midwife or attendant it was stillborn and registered as such.
- A child having been born in an unexpected place, there are several children surnamed **BURGESS** born away from the Salford/Manchester area in the relevant period, mother's maiden **PRESTON**.
- An error in the birth indexes of the GRO.

Fourth Generation (Great Grandparents- Father's mother's line)

The parents of **Mary Ann JONES 1884-1960** were **Robert JONES 1862-likely 1928** and his first wife **Mary Ann BEAVAN** or **BEVAN 1863-1886**.

Robert and **Mary Ann** were married after banns on 7 August 1882 at St. Michael's Parish Church, Hulme, Manchester.

The groom, **Robert JONES**, a bachelor aged 20, a plumber of 11, Lavender Street, [Hulme] was stated to be the son of **Robert JONES**, a plumber. The bride **Mary Ann BEVAN** aged 19, a spinster, of the same address⁶⁰ was stated to be the daughter of **Thomas BEVAN**, a brass finisher.

The witnesses were two persons not obviously related to the bride and groom.⁶¹

Robert JONES 1862-likely 1928

Mary Ann's father was, from censuses born in about 1862. He was despite the indication to the contrary in 1871, born in Salford.

Robert was the son of **Robert JONES abt.1827-likely 1884** and his wife **Ann HINDLE b. abt.1829**.

He is certainly the child **Robert JONES** whose birth was registered in Salford in the June quarter of 1862.⁶²

⁶⁰ They were not necessarily cohabiting at the time of the marriage but may have given the same address to save the cost of having banns called in different parishes.

He is virtually certain to be the child **Robert**, son of **Robert** and **Ann JONES** baptised on 8 June 1862 at St. Bartholomew's Church, Salford.⁶³

Robert was enumerated in the census of 1871;⁶⁴ Robert JONES aged 9, son of head of the household a scholar. This census indicated he was born in Glossop, Derbyshire, though in every other census he is indicated as having been born in Salford and the birthplaces of the other persons in the household are correctly stated.

The household in which he was enumerated was at 6, Tomlinson Place, Salford and the other persons in it were:

Head: **Robert JONES** aged 45, a labourer born Salford.

Wife: **Ann JONES** aged 42, born Accrington.

Dau: Ellen JONES aged 19; work in Mill, born Salford.

Dau: Alice JONES aged 14, born Salford.

Dau: Hannah JONES aged 11, born Salford.⁶⁵

Dau: Mary JONES aged 4, born Glossop.⁶⁶

In the 1881⁶⁷ census **Robert** was enumerated **Robert JONES**, son of head of the household, aged 18, a plumber born Salford, at 12, Edward Street, Salford.

The others in the household were:

Head: **Robert JONES** aged 54, a steam and ? pipe maker (partly obliterated by an enumerator's mark) born Salford.

Wife: **Ann JONES** aged 52, born Accrington.

Dau: Hannah JONES aged 21, a calico maker born Glossop.

Dau: Mary JONES aged 13, born Salford.

Son: George JONES aged 9, a scholar born Salford.

In fact the only family member born in Glossop was Hannah, **Robert's** sister, whose birth was registered in the Hayfield and Glossop Registration District in the

⁶⁵ In fact born in Glossop Derbyshire – see following footnotes

⁶⁶ This again appears to be an error. In the 1881 Mary was enumerated as having been born in Salford and in the 1891 census (below) she was enumerated in her married name of DICKINSON within the household of her parents indicated as having been born in Salford. She is likely to have been the Mary JONES mother's maiden surname HINDLE whose birth was registered in Salford in the September quarter of 1867, though a Mary Ellen JONES, mother's maiden surname HINDLE had her birth registered in the March quarter of 1868 in Salford. That might be accounted for by the high incidence of the JONES surname.

September quarter of 1859.⁶⁸ This indicates a fairly brief stay by this family in Derbyshire sometime between 1856⁶⁹ and 1861⁷⁰.

Following their marriage in 1882 **Robert** and **Mary Ann JONES** had two children, Alice, born in 1882 and **Mary Ann** born in 1884 but in the June quarter of 1886 the death of a **Mary Ann JONES** age at death 22 was registered in the Salford Registration District.⁷¹

On 24 May 1888 **Robert JONES**, aged 26, a widower, a plumber of 10. Sorrell Street, [Hulme], stated to be the son of **Robert JONES**, a labourer married Margaret SWARBRICK, aged 21. a spinster of 16, Smithson Street, [Hulme], stated to be the daughter of James SWARBRICK, deceased, a coachman.

The marriage was after banns at St. Michael's, Hulme and witnesses were George JONES and Jenny SWARBRICK, likely siblings of the parties.⁷²

In 1891⁷³ **Robert** was enumerated **Robert JONES** aged 28, a plumber born Salford as head of the household at 14, Braddon Street, Salford.

The other persons enumerated in the household were:

Wife: Margaret JONES aged 23, born Blackpool.

Dau: Alice JONES aged 8, born Salford.

Dau: Mary Jones aged 2, born Salford.

Dau: Lilly (sic) JONES aged 1, born Salford.

In 1901⁷⁴ he was enumerated **Robert JONES**, aged 39, a plumber, worker, born Lancashire as head of the household at 16, Dennett Street, Blackley, Manchester.

The other persons in the household were:

Wife: Mgt. JONES aged 34, born Lancashire.

Dau: Alice JONES aged 18, a match maker, worker, born Lancashire.

The others in the household were:

Wife: Margaret JONES aged 43, born Blackpool.
Dau: Mary JONES aged 22, a packer in the biscuit industry, worker, born Salford.

Dau: Doris JONES aged 13, born Blackley.
Son: Robert JONES aged 10, born Blackley.
Son: Harold JONES aged 6, born Blackley.
Son: Leslie JONES aged 4, born Blackley.

Robert and Margaret **JONES** were stated to have been married 24 years and to have had 10 children born alive 9 of whom were living at the time of the census.

95, Slack Road was stated to have six rooms.

Without the speculative purchase of several death certificates the date of death of **Robert** cannot be ascertained. There is no person fitting his description enumerated in 1939; the likelihood therefore being that he died before that date.

A likely death registration is that of a Robert JONES in the Manchester North Registration District in the March quarter of 1928, age at death 66. There are however other deaths of persons named Robert JONES of the correct age registered 1911-1939.

Mary Ann BEVAN 1863-1886

mother of **Mary Ann JONES**, was, from the censuses in which she was enumerated, born in Manchester in about 1863. She is certainly the child **Mary Ann**, surname indexed as **BEVIN**, mother's maiden surname **RIGBY** whose birth was registered in the June quarter of 1863 in Manchester.⁷⁶

She was the daughter of **Thomas Henry BEVAN 1839-1923** and his wife **Ellen RIGBY 1840-1919**.

She does not appear to have been baptised in an Anglican ceremony although both of her older siblings were; Eliza on 11 August 1861 at St. Andrews Manchester⁷⁷ and George on 1 April 1866 at St. Peter's Liverpool.⁷⁸

She was first enumerated in the census of 1871⁷⁹ as daughter of the head of the household, **Mary Ann BEVAN** aged 7, born Manchester, at 6, London Road Manchester.

The other persons in the household were:

Head: **Thomas BEVAN** aged 32, a brass finisher born Warrington.

Wife: **Ellen BEVAN** aged 31, born Manchester.

Son: George BEVAN aged 5, born Liverpool.

Fifth Generation-Second Great Grandparents

Fifth Generation (Second Great Grandparents- Father's father's line)

The parents of **John Joseph BURGESS 1862-1940** were **John BURGESS b. abt 1829** and his wife **Sarah BURGESS abt. 1833-1871**

John and **Sarah** were married on 1 September 1850 at Manchester Collegiate Church after banns.

The groom, **John BURGESS**, a bachelor aged 21, a porter of Union Street, Salford was stated to be the son of **Peter BURGESS**, a porter.

The bride, **Sarah BURGESS**, aged 17, a spinster, also of Union Street, was stated to be the daughter of **William BURGESS**, a goods manager.

The groom signed his name whilst the bride made her mark.

The witnesses were two persons neither of whom were obviously related to bride or groom.⁸¹

John BURGESS b about 1829- perhaps 1889

From his marriage record and subsequent census returns **John Joseph's** father **John BURGESS** was born in about 1829, and from censuses in Northwich, Cheshire. From his marriage record his father was **Peter**, likely to have been born around the turn of the 18/19 centuries.

Speculatively it was initially thought **John** may have been the John BURGESS enumerated in 1841⁸² in a household at Great Budworth, Northwich, age given as 15; that is aged between 15 and 19, born Cheshire.

The other persons in the household were:

Peter BURGESS age stated as 40, that is aged 40-44, a saddler born Cheshire.

Lydia BURGESS⁸³ age stated as 50, that is aged 50-54 born Cheshire.

William BURGESS age stated as 15, that is aged 15-19, born Cheshire.

Nancy BURGESS⁸⁴ age stated as 80, that is aged 80-84, born Cheshire

Report on the Paternal Ancestry of [Name]

Fifth Generation-Second Great Grandparents

Elizabeth WARRELL age stated as 15, that is aged 15-19, a female servant born Cheshire.

However in 1851, a year after **John's** marriage in Manchester, Peter BURGESS aged 53, a saddler employing 3 men born Winnington, Cheshire, wife Lydia aged 60, born Cowton, Cheshire with sons John 29, William aged 26 with various visitors, servants and extended family were still living in Northwich.⁸⁵

John's first obvious appearance in a census was in that following his marriage in 1851⁸⁶ when he was enumerated in what appears at first to be a very oddly constituted household at Union Street, Salford. He was stated to be **John BURGESS**, the nephew of the head of the household, married aged 22, a Railway Guard born Cheshire, Northwich. He was listed in the household after Elizabeth BURGESS but before his own son, William Thomas BURGESS.

The household enumeration list is as follows:

Head: **William BURGESS** aged 38, a Foreman [unreadable] Railway Guard born Northwich.

Wife: **Hannah BURGESS** aged 36, born Northwich.

Dau: **Sarah BURGESS** aged 17, married born Northwich.

Dau: Hannah BURGESS aged 7, a scholar born Salford.

Dau: Eliza BURGESS aged 3, born Salford.

Dau: Elizabeth BURGESS aged 5 months, born Salford.

Neph: **John BURGESS** aged 22, married, a Railway Guard born Northwich.

Son: William Thomas BURGESS aged 4 months, born Salford.

William Thomas BURGESS is readily identifiable as the son of **John** and **Sarah BURGESS** rather than the son of **William** and **Hannah**.

- Though there are modern instances of twins being born some time apart at the time in question were twins not born together the likelihood of them both and the mother surviving makes it extremely unlikely that **Hannah** could have been the mother of both Elizabeth and William Thomas.
- William Thomas BURGESS was enumerated in censuses of 1861 and 1871 with both his parents, **John** and **Sarah** (below).

⁸⁴ Possible mother of Peter.

⁸⁵ 1851 England census Class: HO107; Piece: 2165; Folio: 417; Page: 4

- On 8 December 1850 William Thomas, son of **John**, a Railway Guard and **Sarah BURGESS** of Salford was baptised at Manchester Cathedral, his date of birth being noted as 5 November 1850.⁸⁷
- William Thomas is certainly the child William Thomas BURGESS, mother's maiden surname BURGESS whose birth was registered in Salford in the December quarter of 1850.⁸⁸

This initially confusing census is interesting in that by giving the relationship between **John BURGESS** and head of the household **William BURGESS** as nephew rather than son in law it indicates that **John** and his wife **Sarah BURGESS** were likely first cousins and their fathers brothers.

In 1861⁸⁹ he was enumerated **John BURGESS** aged 32, a Railway inspector born Northwich as head of the household at 13, Wellmeadow Buildings, Regent Road, Salford.

Also enumerated in the household were:

Wife: **Sarah BURGESS** aged 27, born Norwich.

Son: William T. BURGESS aged 10, a scholar born Salford.

Dau: Olive BURGESS aged 8, a scholar born Salford.

Dau: Ellen BURGESS aged 5, a scholar born Salford.

Dau: Clara BURGESS aged 3, a scholar born Salford.

Son: Peter L. BURGESS aged 1, infant, born Salford.

In 1871 he was enumerated in the same household as his son **John Joseph BURGESS** as head of the household at 76, Ordsall Lane Salford.

John BURGESS aged 42, a Railway inspector born Norwich.

In the September quarter of 1871 the death of a **Sarah BURGESS** aged 37 was registered in the Salford Registration District⁹⁰ and in 1881 John was enumerated, again with son **John Joseph**, as a widower, **John BURGESS** aged 52, a Railway Servant born Northwich, head of the household at 26, Wild Street, Salford.

The death of a John BURGESS, age at death 58, likely to be the subject person as **John** is not ascertainable in further censuses, was registered in the Salford Registration District in the June quarter of 1889 in Salford.⁹¹

Sarah BURGESS 1833-1871

the mother of **John Joseph BURGESS** was the daughter of **William BURGESS b. abt 1813** and his wife **Hannah LEICESTER or LESTER abt 1815-1871**.

Sarah's parents **William BURGESS** and **Hannah LEICESTER** were married in Davenham Cheshire on 20 May 1833.⁹²

Hannah can be identified from the birth index registration of Alice Julia BURGESS, a sibling of **Sarah BURGESS** born in 1854, and the subject of a birth registration in the March quarter of that year in Salford, mother's maiden surname LESTER.⁹³

From censuses Sarah was born in Northwich, Cheshire in about 1833, she may be the child **Sarah**, daughter of **William** and **Hannah BURGESS** baptised at Witton cum Twambrooks, Cheshire on 3 November 1833.⁹⁴

In 1851 **Sarah** was enumerated as daughter of head of the household with her parents **William** and **Hannah** and also with her husband **John BURGESS** and their eldest son William Thomas.

Dau: **Sarah BURGESS** aged 17, married, born Northwich at 81, Union Street, Salford.

In 1861 and 1871 she was enumerated with her husband **John** and their children.

1861: Wife: **Sarah BURGESS** aged 27, born Norwich at 13, Wellmeadow Buildings, Regent Road, Salford.

1871: Wife: **Sarah BURGESS** aged 37, born Northwich at 76, Ordsall Lane, Salford.

As referenced above she died in 1871 and is certainly the **Sarah BURGESS** age at death 37, of Ordsall Lane, Salford buried on 26 September 1871 at St. George's Hulme.⁹⁵

The burial register gives an unusual amount of detail including the cause of death – gastric fever, date of death 23 September and some marginal figures 1/15 which may indicate a grave plot number.

Robert JONES abt. 1827-1884.

Though the baptism entry gives his parents abode at the time of his baptism as Manchester from censuses he was born in Salford.

He is likely to be the child Robert, son of **Samuel**, a dyer, and **Ellen JONES** of Manchester baptised at Manchester Collegiate Church on 15 April 11827.¹⁰⁹

He is also likely to be the **Robert JONES**, age given as 15, a cotton doffer, born Lancashire enumerated in 1841¹¹⁰ in a household at North Street, Salford.

This part of the 1851 census is so badly damaged by water (part of the Salford census was uncopyable) that the Municipality cannot be made out, nor can other details near the top of the page.

It is clear he was enumerated as head of the household, **Robert JONES** aged 21, a cotton dyer born Salford.

Also in the household were:

Wife: **Ann JONES** aged 21, a weaver, born Accrington, Lancashire.

Son: Thomas JONES aged 4 months, born Salford.

From censuses he was born in Latchford (in Warrington), Cheshire in about 1839 and is certainly the child **Thomas Henry BEVAN**, mother's maiden surname **EVANS** whose birth was registered in the Runcorn Registration District in the March quarter of 1839.¹²⁰

From the record of his adult baptism (below) he was born on 8 February 1839.

in the same household as his daughter **Mary Ann**.

On 14 June 1871 **Thomas Henry** born 8 February 1839, son of **George Henry** and **Mary Ann BEVAN** was baptised at St.Saviour's Church Chorlton upon Medlock. Whilst he has an additional forename (which may have been a name taken on baptism) and his parents appear to have acquired an extra forename each this is clearly the subject person. The address given, likely to have been in part for him rather than his mother, was London Street, Altrincham, London Road and the occupation, which is certainly his rather than his father's, was brass finisher.¹²⁵

In 1881 **Thomas** was again enumerated as head of the household, then at 20, Armitage Road, Salford in the same household as his daughter, **Mary Ann**.

Head: **Thomas BEVAN** aged 43, a brass finisher born Warrington.

In 1891 he was enumerated as head of the household at 21, St. James' Street Salford, in the same household as his granddaughter **Mary Ann JONES**, child of his deceased daughter, **Mary Ann**.

The death of **Thomas Henry BEVAN** age at death 84 was registered in the Chorlton on Medlock Registration District in the December quarter of 1923.¹²⁸

Ellen RIGBY 1840-1919

the mother of **Mary Ann BEVAN** was the daughter of **Townley RIGBY** abt 1820-1864 and his wife **Catherine TRAINOR** b. abt 1818.

From censuses Ellen was born in Manchester in about 1840 and is certainly the child **Ellen RIGBY** whose birth was registered in Manchester in the March quarter of 1840.¹²⁹

Her parents had been married on 22 October 1838, when both were under age, at St. Mary's Church, Manchester though the register does not say whether after banns or by licence. Their names were rendered as **Townley RIGBY** and **Catherine TRAYNOR** and both were able to sign their names.¹³⁰

Ellen was enumerated in 1841¹³¹ in a household at Pump Street, Manchester, **Ellen RIGBY** aged 1 born Lancashire.

In this census in the absence of specific addresses it is hard to tell where one household ends and the next begins. However it is likely that the household comprised:

Edward TREANOR age given as 60, a weaver born Ireland.

Catherine TREANOR age given as 60, a hawker born Ireland.

Ellen TREANOR age given as 15, born Lancashire.

Townley RIGBY age given as 20, a dyer born Lancashire.

Catherine RIGBY age given as 20, cotton mill born Lancashire.

Given that at her marriage **Ellen's** mother, **Catherine** had given her father's name as **Edward TRAINOR** a spirit merchant **Edward** and **Catherine TREANOR** enumerated here are likely to have been her parents.

In 1851¹³² **Ellen** was enumerated **Ellen RIGBY** as granddaughter of head of the household aged 11, Factory, born Manchester at 18, St Andrews Street, Manchester.

Suggestions for further research

As with most family studies this research would be enhanced by the purchase of further certificates of birth marriage and death.

John Joseph BURGESS 1862-1940 made a will.

Wills are frequently a rich source of family information. The three wills above can be purchased at a cost of £10 each. Any extra fee would depend on time taken in analysis.

Several ancestral lines in this study are capable of being taken back one or more generations using online records.

Whilst results for research before about 1837-1841 is slightly more speculative than that afterwards, due to lack of identifiers in the records, research can often be carried out with an acceptable degree of certainty.

Indications are that the following lines might be taken back further:-

PEARSON: HARWOOD, RIGBY.

though research, till carried out and confirmed, is always speculative.
